Two decades of security experience, now UK-wide

SECURICO Guard Services Ltd provides **professional manned guarding across the United Kingdom** — protecting commercial premises, residential developments, construction sites and public-facing environments with SIA-licensed officers.

Founded in 2004 and built on two decades of frontline security operations, SECURICO expanded into the UK in the early 2020s — bringing established systems, training standards and round-the-clock command infrastructure to British clients.

We don't subcontract and we don't cut corners. Every officer who arrives on your site is recruited, vetted, trained and managed directly by us — so the standard you're promised is the standard that turns up, shift after shift.

Our model combines traditional guarding discipline with modern oversight: real-time GPS patrol tracking, digital checkpoint scanning and photo-verified incident reporting, coordinated through a control room operating 24 hours a day, 365 days a year.

Same-day cover for emergencies

Two decades of operational experience underpin everything we do: a fully licensed workforce, round-the-clock command and control, and rapid mobilisation that lets us take on new contracts at short notice without compromising service quality.

Core security services

Manned Guarding

SIA-licensed static officers stationed at your premises — a visible, professional deterrent against theft, trespass and anti-social behaviour. Gatehouse duties, access control, patrols and visitor management, 24/7/365 with real-time GPS and photo-verified reporting.

Door Supervision

SIA door supervisors qualified in conflict management and physical intervention — the higher-tier licence for busy, public-facing environments.

Concierge & Front of House

Security-trained reception officers who protect the building while representing your brand — corporate, residential and build-to-rent.

Mobile Patrols

Marked patrol vehicles on GPS-tracked routes, with scheduled and random visits and full digital logs.

Keyholding & Alarm Response

24/7 rapid response to alarm activations — removing any risk to your own staff out of hours.

CCTV & Remote Monitoring

Live video surveillance and proactive monitoring, coordinated through our 24/7 control room.

Event Security & Stewarding

Conferences, exhibitions, sporting and private events — crowd, queue and access management.

Vacant Property Security

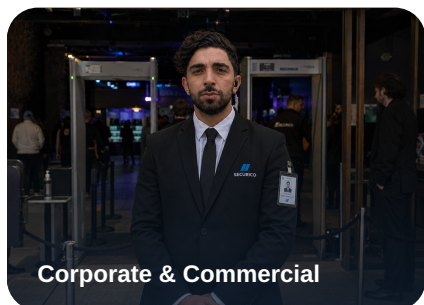

Protecting empty and void sites against trespass, squatting, vandalism and metal theft.

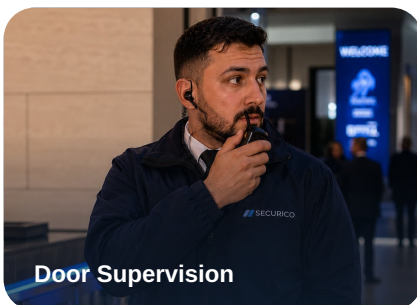

Construction Site Security

Active sites, plant and equipment compounds — gatehouse control, patrols and access logging.

Five reasons clients choose us

01

Directly employed officers — no subcontracting

Every guard is recruited, vetted and managed by us, to our standard. You get continuity and accountability, not a rotating cast of agency staff who don't know your site.

02

Two decades of operational experience

Established in 2004 and trusted by clients since, with a 99% client retention rate. Our UK operation is backed by proven systems, not built from scratch.

03

Real-time reporting and total transparency

Live GPS patrol tracking, digital checkpoint scanning and photo-verified incident reports give you complete visibility of what's happening on your site, day or night.

04

Rapid mobilisation, UK-wide

Most sites are covered within 24 hours, with same-day emergency cover available. Our control room and management structure scale with your contract across the whole of the UK.

05

A named contract manager on every account

You get a single, accountable point of contact who knows your contract inside out — overseeing delivery, consistency and reliability across all your sites.

Command, control and compliance

Behind every officer on the ground is a control room built to keep them supported, supervised and accountable. Our Security Operations Centre operates 24 hours a day, 365 days a year — tracking patrols, monitoring welfare check-ins, and coordinating rapid response to any incident.

24/7 Security Operations Centre

Continuous oversight of every officer on shift, with live communication and escalation.

Full Public Liability Insurance

Comprehensive cover, with proof of insurance available on request for any tender.

SIA-Licensed Workforce

Every licence verified before deployment and monitored for renewal.

Pre-Deployment Vetting

Officers screened and referenced before they ever attend a client site.

Digital Audit Trail

GPS, checkpoint and incident data retained and reportable for audits and reviews.

Assignment Instructions

Bespoke, documented operating procedures for every site we protect.

Tender-ready documentation. We can supply insurance certificates, SIA verification, vetting policies, method statements and risk assessments as part of any bid or pre-qualification questionnaire.

From enquiry to officers on site

1

Enquiry & Quote

We assess your requirement and provide a clear, no-obligation quotation tailored to the site.

2

Site Survey

We review your premises and risks, then design a security plan and written assignment instructions.

3

Deployment

Vetted, SIA-licensed officers are on site — typically within 24 hours, same-day for emergencies.

4

Manage & Report

Live reporting, control-room oversight and a named contract manager keep delivery consistent.
